## PAID SALES AND MARKETING INTERNSHIPS

### Organization Profile/Position Overview

Since 2007, our cloud-based Wireless Network Monitoring (WNM) platform has enabled organizations to manage the Wi-Fi user experience on their networks. 7SIGNAL collects Wi-Fi performance data across the enterprise and its analytics engine presents the data as Key Performance Indicators, giving network administrators immediate visibility of Wi-Fi health and performance, enterprise-wide. The platform enables businesses to significantly improve Wi-Fi baseline performance, reduce troubleshooting time and proactively identify wireless issues before users complain and productivity is lost.

As a Sales or Marketing intern at 7SIGNAL you will get exposed real-world business operations, not just administrative or meaningless tasks. All interns will be considered for a career with 7SIGNAL upon graduation.

### Intern Responsibilities and Learning Objectives

- Day-to-day duties and tasks may include appointment setting, CRM maintenance, trade show management, marketing automation, copywriting, design and more.
- No more than 25% clerical work
- The ideal candidate will learn to write compelling online content
- Interns will gain experience in sales, project and event management, public relations, and event logistics

### Internship Benefits

- \$13 per hour
- Start immediately
- Commission (if applicable)
- Interns will participate in company meetings, networking events and professional organizations.

### Intern Requirements

- Business major preferred
- Intermediate knowledge of the MS Office Suite
- Intermediate computer skills
- Advanced written and verbal communication skills

Please send your resumes and LinkedIn profile to [don.cook@7signal.com](mailto:don.cook@7signal.com) ASAP. We move fast and will interview and accept interns accordingly.
