

## Accounting Internship Opportunity

SAS is a full-service accounting firm located in Lyndhurst OH.

We provide tax, accounting, and business advisory services to the closely held business and its owners. We also provide tax planning and compliance services to the individual taxpayer.

Our offices are relatively new and the work environment is very comfortable.

## Job Description

We are seeking a Tax Intern to assist with the preparation of income tax returns this coming tax season. The work involves primarily individual income taxation, as well as some trust, partnership and corporate taxes.

The position would start in early to mid-January and go through April 15<sup>th</sup>. We are looking to cover five to six days a week during this time period, 9 am to 5 pm weekdays generally. Understanding that the candidate will have other commitments, it may be necessary to hire two people for 20 hours per week each. We can be very flexible with this in order to make it work for everyone. This position is not able to be done remotely however.

This is a paid opportunity, at standard market rates.

## Qualifications

The ideal candidate might have some familiarity with individual taxation. Knowledge of trusts, partnerships and corporations would be a plus. However, we expect to train the candidate, as we do not expect them to have direct knowledge of taxation at this stage of their education. We use CCH Access software and will train to use that as well. It would be helpful if the candidate had experience using Microsoft Excel and Word. Experience using Quickbooks would be great, but it's not a requirement.

## To Apply

Send resume to -Mail [steve@sendercpa.com](mailto:steve@sendercpa.com)

## Profile

Steven E. Sender is the Managing Member of SAS Accounting Services. He has been practicing since January 1987 and has a combination of experience in both public accounting and industry, working in the "Big Eight" environment, as well as working for two public companies. Steve is a member of the Ohio Society of CPA's as well as the American Institute of CPA's. He received his B.S.B.A. from Kent State University in 1986.
